Mr. V. K. Aravindaksha Menon *(Chief Engineer):* The Mullurkayal water is the channel water. When it is opened it joins the channel and so the water in the channel is also flowing from the Mullurkayal storage.

Mr. V. R. Krishnan Ezhuthassan *(Urakam):* The water that was left after opening the Mullurkayal reservoir must have flown into the channel and that water was available for him to irrigate only 50 paras of lands.

Mr. V. K. Aravindaksha Menon *(Chief Engineer):* That is not what he said.

Mr. P. Sankara Menon *(Trichur-North):* On a point of information, Sir, to the Hon'ble Member for Revenue. I should like to know whether the Government consider it necessary in view of the difficulties of the various cultivators to give any remission of the collection of cess.

Mr. A. Madhava Prabhu *(Diwan Peishkar):* Not at this stage.

Mr. P. Sankara Menon *(Trichur-North):* I am sorry that the attitude of the Government is not of much help to the cultivators. At least it has been to some extent as the Hon'ble Member for works has admitted that a section of the cultivators did not get sufficient water. In view of that and as the Member for Revenues says that Government do not consider it necessary to give any remission of the cess I am constrained to press this motion on the issue of the collection of cess.

Mr. President: I think the noes have it.

Mr. P. Sankara Menon *(Trichur-North):* Poll, Sir.

Ayes
